

BEDFORDSHIRE COUNTY NETBALL

Coach Education Programme : Analysis – Solving a Problem on Court

The Bedfordshire Coach Education Programme reached its fourth Workshop on 11th December, with an on-line delivery on the subject of Solving a Problem on Court.

Tamsin Greenway, Head Coach of Netball Scotland and formerly Head Coach at Wasps Netball and Surrey Storm, led the Workshop which covered the subject of **Solving a Problem on Court**

This workshop was a very interactive morning for both club coaches who are on the Bedfordshire Coach Education programme and other club coaches from the East Region who joined for this session, was delivered on-line.

There was plenty for the coaches to consider and discuss with Tamsin when they come to observing their own teams and how they prepare, plan and deliver their training sessions to help solve an issue they could have on court.
